Specifications:- Corrugated Coffin

Coffin Style:	Standard Coffin
Coffin Base:	Internal Dimensions – 1800 x 570 x 320mm
Complete Coffin Assembled:	Outer Dimensions – 1890 x 675 x 360mm
Delivery Flat Packed:	Delivered flat and assembled on site Simple assembly instructions to erect the coffin – two components make the kit. Coffins stacked flat and palletised.
Construction Material:	Heavy duty corrugated board, die cut, laminated and folded to create a sturdy and presentable coffin. There is a barrier coated inner base that will make the coffin fluid resistant and prevent any seepage. The coffin is 100% degradable and manufactured from recycled fiber constituting a monolithic fiber material product.
Load Capacity:	100kg
Delivery Erected:	This can be arranged, but will be costed depending on delivery destination.
Coffin Coating Optional:	Barrier coating can be applied to the outer base and lid giving moisture proofing to the external surfaces of the coffin.
Coffin Strength Option:	The standard size can have an extra strength option increasing the carrying capacity to 150kg.

Coffin Style:	Extra Length Coffin
Coffin Base:	Internal Dimensions – 2000 x 570 x 320mm
Complete Coffin Assembled:	Outer Dimensions – 2090 x 675 x 360mm
