Specifications:- PPE Visor Shields

Visor Style:	Full face direct protection for eyes, nose and mouth.
Visor Size:	One size fits all. The locking tab on the strap facilitates all head sizes from your average 6 year old.
Visor Assembled:	240 x 240 x 170mm
Visor weight:	28g
Quantities per pack:	100
Delivered Flat Packed:	Delivered flat and assembled by user. Simple assembly by sliding the locking strip into the front shield and feeding through the slots. Two parts to assemble the Visor Shield.
Construction Material:	The Visor Shield is made from 400 micron PVC, and can be washed and cleaned for reuse.
Design considerations:	The visor shield has sufficient air gap from the nose so that it does not mist up. The strap is wide enough to prevent discomfort. The light weight design means less discomfort with continued use.
